7. DESCRIPTION OF INCIDENT

After the start, both 32004 and 31929 were OCS. 32004 was bearing away to return to the pre-start side around the ends of the line.

While clearing for the OCS, 31929 stopped head to wind and drifted onto us, In the meantime, we bore away to avoid 31929, but it struck us.

31929 then continued racing, as shown by the tracking data, while we returned around the ends of the line and restarted correctly.

As a result of the collision, 32004 suffered severe damage and was at risk of sinking. We were forced to retire from both Race 1 and Race 2.
